PROFESSIONAL PROFILE

With over 8 years of experience in Business Intelligence and data solutions, I've evolved from developer to BI Team Lead and Solutions Architect. I specialize in designing sophisticated BI ecosystems that transform complex data into actionable insights, driving strategic decision-making at enterprise scale. My expertise spans the full BI stack—from data warehousing and ETL processes to visualization and analytics—with proficiency in advanced tools and methodologies.

PROFESSIONAL EXPERIENCE

Product Owner, BI Development Team Lead
February 2024 – Present
Bank of Russia
Saint Petersburg, Russia

- Leading a dedicated BI solutions development team while serving as Product Owner for BI products
- Managing implementation and customization of products to meet client requirements, developing self-service analytics applications
- Scaling solutions and designing target architecture to meet functional requirements
- Orchestrating enterprise-grade BI ecosystems, revolutionizing data warehousing structures
- Implementing sophisticated ETL workflows and leveraging advanced visualization platforms

Solutions Architect
September 2022 – February 2024
Bank of Russia
Saint Petersburg, Russia

- Designed BI solutions and data warehouses, selecting technologies to achieve strategic objectives
- Leveraged expertise in data storage, modeling, integration, and reporting for complex projects
- Evaluated and recommended appropriate technological solutions across various stacks
- Led cross-functional teams while providing management and mentorship
- Applied architectural frameworks such as TOGAF, Zachman, and ITIL

Senior Expert
August 2019 – September 2022
Bank of Russia
Saint Petersburg, Russia

- Led development initiatives for BI technology, establishing architecture standards
- Managed data flow configuration, conducted comprehensive data analysis
- Designed models, data marts, and ETL processes while administering BI tools
- Developed complex reports, addressed information security concerns

BI Consultant
September 2016 – July 2018
Korus Consulting
Saint Petersburg, Russia

- Designed and implemented BI architectures and data visualization solutions
- Conducted system testing, provided expert-level user support, and customized reports
- Created technical documentation and proof-of-concept demonstrations
- Collaborated with IT and business teams to translate requirements into solutions
